The Bloody Arbitrament

Every day it is asserted by hundreds of our people that the arbitration of the sword will not be conclusive, that no matter what may be the result of the contest at arms, the sympathizers of the South are so far alienated that no good feeling for, or hearty co-operation in any of life's business transactions with the North, is henceforth possible. This determination is neither based upon reason nor justified by history. It is all very pretty to declare that the entirety of rebeldom must be annihilated before peace can be restored, it is a flattering compliment to an anything but creditable trait in the human character—obstinacy—and if those now attempting to sting the heart of our Government can find any consolation in such unauthentic assurance, they are certainly welcome to its most soothing effects. If, in the opinion of the South, an appeal to the sword cannot settle the difficulty, then the attack on Sumter was indeed a desperate affair, involving perfect success to the cause of treason or the total annihilation of its supporters. Then too, the action of the South toward prisoners becomes divested of its inhuman atrocity, and the systematic butchery of the sick and defenceless is simple obedience to the inexorable law of necessity. But there is no occasion for such erroneous opinions to exist—if they do exist in honesty, which we much doubt—among those who sympathize with the cause of treason. No one who can read has arrived at man's estate without *knowing* such assertions to be arrant humbug. Nearly every decade of the present century which has left its "footprints in the sands of time," has decided this question upon a distinct issue. Our own country was called upon only fifty years ago to repeat a decision previously rendered upon the same question; it was repeated; and that decision is in harmony with those laws which govern our being in its social and political relations, which, under the title of reciprocity, are obeyed as a pre-essential measure of individual, sectional or national prosperity. It would grossly falsify the record to deny that the South had brave participants in that noted struggle, and her present as well as past relations with Great Britain stultify the assertions of her irredeemable estrangement from the North.

The question of slavery—whether national or sectional—has been debated with more or less acrimony ever since the foundation of our Government. So long as the slave power was dominant, and could control the ballot-box through the corruptibility of politicians and the culpable indifference of the great masses, the advocates of the present rebellion were content to leave the question to be settled there. When, however, the stench of an unholy servitude became too strong in the nostrils of the American people, and by their mighty will they declared that slavery should no longer rule them, force—the tyrant's argument—was resorted to, and cold blooded murder characterized the course of those who had claimed to rest their cause in the hands of truth and justice. The minority defeated at the ballot-box, cannot defeat the majority on the battle field. The institution which has hitherto cursed our land is fast being obliterated, and when slavery no longer has an existence, it can have no defenders. The sympathies and interests of the entire country will again be identical, and the bond of Union will be stronger than ever before. Every honest man of every nation will condemn the past practice of the South, and rejoice in the sublime unanimity which shall mark our Nation, the champion of Liberty, an uncompromising friend in peace, an unconquerable foe in war.

Department of the Pacific.—Maj. Gen. McDowell assumed command of the Department of the Pacific on the 1st of July. Gen. Wright continues in command of the District of California. Maj. R. Kirkham is announced as Chief of the Quartermaster's department on this coast, relieving Lieut. Col. Babbitt. Gen. McDowell further announces Captains Haven and Cutting as Aids de Camp.

J. S. Reynolds & Co., are to commence the publication of a weekly paper at Idaho City the latter part of this month. It will support the present Administration, and the next one with Andy Johnson as Vice. Success to them.

Ripe Apples in Vancouver.—We had the pleasure while at Vancouver on the 4th, of eating a fine ripe apple of the Red Astracan variety, grown in the garden of Mr. Hayden of that city. Fruits generally look well advanced there for the season.

Twenty thousand pounds of California wool recently sold in New York at rates ranging from 50 to 55 cents per pound in currency.

By Overland Telegraph.

SPECIAL DISPATCHES TO THE DAILY OREGONIAN

LATER FROM THE EAST.

Dates to July 8.

30,000 Rebels across the Potomac.

Rebels occupy Hagerstown after Spirited Resistance from our troops, who retreat into Pennsylvania.

NO TROOPS TO BE TAKEN FROM GRANT'S FORCES.

12,000 additional Troops called out.

BATTLE ONE MILE OF FREDERICK.

Shells thrown into the City.

After Four Hours Fighting the Rebels are Repulsed leaving our Troops in Possession of the Field.

Reinforcements continue to arrive, and the Result must be disastrous to the Rebels.

AFFAIRS AT PETERSBURG.

The Most Exciting Artillery Fight of the War.

THE ENEMY'S BATTERIES SILENCED.

100 Guns ready to Destroy the City.

More about the Alabama.

Chicago, July 7th.—A Baltimore telegram to-day says the city is full of rumors. The following is believed to be correct. Intelligence from the region about Maryland Heights and beyond warrants the belief that the rebel force this side of Potomac and on the line of Virginia side is not less than 30,000. Gov. Curtin telegraphs to Washington that 20,000 rebels had crossed at Point of Rocks. In the absence of accurate knowledge of the state of affairs in the vicinity of Harper's Ferry the reports must be taken for what they are worth.

New York, July 7th.—The *Tribune's* Harrisburg special of the 6th says that official information received shows that Grant had notified the War Department of the withdrawal of a large force of the rebel army from his immediate front. A large portion of Hunter's force reached Parkersburg on their way east. The advance will reach Cumberland to-morrow.

The *World's* says that notwithstanding the wild reports on the subject, the rebels burned only one important bridge west of Harper's Ferry at Patterson's Creek. It is understood that nothing the rebels can do in the Shenandoah Valley will induce Grant to send any portion of his army to its defence. Movements are underway at Washington to largely reinforce Grant's army with veteran troops drawn from points less vital than Richmond.

Harrisburg, July 6th.—Dispatches from Chambersburg state that rebels, supposed to be Bradley's or Johnston's brigades, entered Hagerstown this afternoon. The Federal force, after a spirited resistance, were compelled to fall back on Greencastle. Telegraphic communication was held up to 9 o'clock to-night. A proclamation has been issued by the Governor, calling for 12,000 troops in addition to the 17,000 called for on the 5th.

Baltimore, July 7th.—The rebels at Harper's Ferry destroyed all the railroad property, telegraph and ticket offices, and burned a large amount of forage.

There is no longer any doubt that Lee has sent a considerable portion of his army in this direction. The *American* has the following from Frederick, under date of July 7th. At 10 o'clock this morning, the 8th Illinois cavalry made a reconnoisance to Middleton, five miles from Frederick, where they met the enemy in strong force comprising infantry, cavalry and artillery. After a sharp fight, our forces were repulsed, and fell back to Frederick, the enemy slowly pursuing.

Later.—The enemy are now one mile from town on the Hagerstown pike, all the sick and Government stores have been removed.

Baltimore, July 7—11 P. M.—Reliable reports from Loudon county say that there are no rebels there, and also say that Mosby, with 200 or 300 men had crossed the river and were committing depredations near Point of Rocks on Monday. Another attempt was made on Tuesday, but was deterred because of the appearance of our cavalry. They have fallen back, but guard the roads to prevent the loyal citizens from communicating with the Maryland shore.

The following particulars are gathered from headquarters.

Information received to-night states that on yesterday afternoon the rebel advance made an effort to gain the bridge over the Monocacy. Wallace with a small portion of his force moved to check them and formed a line one mile east of town. The fighting commenced at 4 P. M., and lasted with more or less severity until 8 when the rebels retired leaving us in possession of the ground. During the action, several shells fell in the city. Wallace is confident of holding Frederick. No estimate is given of the killed and wounded, reinforcements are being rapidly pushed forward, there is every reason to believe that this movement of the enemy will result disastrously to the rebel cause.

New York, July 8.—A special Harrisburg dispatch says that the following is the substance of a dispatch received by Gen. Couch.

The officers of the Baltimore and Ohio Railroad state that the invading force either in Maryland or on the march to that State is not less than 30,000, and say that it is an ascertained fact from their own agents that the enemy, consisting of 15,000 infantry, artillery and cavalry, principally the latter, left Hagerstown this morning on the old National road, moving in the direction of Boonsboro en route for Frederick. They were marching at daylight.

Rumors prevail that a force of several thousand strong are encamped south of Middleburg, between Greencastle and Hagerstown, but they are not believed.

The forces which are levying contributions on the people of Hagerstown, are partly Imboden's and partly the old force of Jenkins, which led Lee's advance into Pennsylvania last year. We have information that there are no rebels on the other side of Hagerstown.

The *Tribune's* special at Monocacy, the 7th, says Harper's Ferry is still held by the rebels, who have sharpshooters in the houses and behind fences to prevent our men coming down from the Heights. Last night they set fire to the bridge again destroying fifty feet of trestle wood work under the span on the Virginia side. Wallace established his headquarters here for the present. He sent Colonel Clendenin with a force of cavalry and two guns to feel the enemy with orders to proceed as far as Boonsboro. Clendenin met the enemy one mile east of Middletown and had a brisk skirmish. He found the enemy in superior numbers but drew him toward Frederick, where he showed battle. Meantime Wallace was reinforced by Gilpin, and one mile east of Frederick, they were attacked by the rebels. The battle opened and the firing continued severely for three hours. Gilpin's command dislodged and drove back the enemy three times. The object of the fight was to hold the bridge across the Monocacy to Frederick Junction. Reinforcements *en route* will arrive to-night at Harper's Ferry. Wallace will hold Frederick. We are assured from headquarters that everything is progressing well. Reinforcements are now reaching the front. The rebels will soon find great disappointment in their expectations. Wallace says the detachments of the hundred days men behaved well.

Philadelphia, July 7.—The *Bulletin's* special at Chambersburg, the 7th, says a man just arrived from Greencastle says McCausland's command formerly Jenkin's 1,500 strong cavalry mounted infantry and one battery, entered Hagerstown yesterday and left at 11 o'clock by the Frederick Pike Road where the main body of the rebels had gone.

This morning parties of the rebels returned and made requisition on the people for fifteen hundred outfits and $70,000, which was paid under threats of burning the town.

New York, July 8th.—The *World's* Frederick special says that the commissary stores of Hunter and Sigel had not been burned as reported but were abandoned. The rebels learning this, sent a part of their force to Maryland as a blind scattering them about so as to distract attention while those left were hurried off to Staunton and Winchester. Finishing this job, they will concentrate in Maryland, and do all the damage they can.

New York, July 7.—The *Herald's* 18th corps correspondent Petersburg 2d, says: To-day witnessed one of the most exciting artillery battles of the war. After two hours cannonading the rebel batteries were completely silenced and the rebels driven from the place. At 3 o'clock P. M. the enemy again opened fire, and soon his works were enveloped in a continuous cloud of dust from our shells. The rebel gunners were seen running to the rear for safety after two hours firing the rebel batteries were silenced. Our batteries were placed with great skill and care so at any moment they could concentrate to at any given point.

The bombardment of the city is steadily doing its work. A large number of buildings are already destroyed.

The *Tribune's* special correspondent says that Petersburg is now covered by more than 100 of our guns, waiting Grant's orders. The destruction will be the work of a few hours.

Fortress Monroe, July 6th.—A steamer arrived this morning from Bermuda Hundred. Nothing new from the [illegible] battle yet.

The steamer *Keyport* reports that when she left City Point on the morning of the 6th heavy firing was heard in the direction of Petersburg, but it was not known whether it was any more than artillery duelling. The hospitals at City Point have been cleared of nearly all the sick and wounded.

Memphis, July 6.—Gen. Washburne has issued the following order. Whereas, railroad trains from Memphis to Saulsbury have been frequently fired into by guerrillas, and whereas many persons along the railroad line encourage such proceedings, it is ordered that 40 of [illegible] secessionists [illegible] between Memphis and [illegible] be arrested—25 of whom are to be placed in the train each day in the conspicuous positions, one being placed on each side of the engine. No train will be allowed to leave Memphis without this escort guard until the murderous business is desisted from.

New York, July 7.—A committee headed by Admiral [illegible] has been formed in London to raise by guinea subscriptions a fund for purchasing a handsome sword to replace that which Semmes lost by the sinking of the *Alabama*. It is reported that a considerable sum has been raised in Liverpool for the same purpose.

The *Daily News* publishes an account of the *Kearsarge Alabama* affair, in regard to the course pursued by the former in not charging the *Deerhound* as a sort of a tender to the *Alabama*. Capt. Winslow would have secured the whole of the officers and crew of the *Alabama* had he not placed too much confidence in the honor of the owners of the yacht. He considered Semmes and others who escaped in honor bound to give themselves up, and therefore did not pursue or fire upon the *Deerhound* because he did not believe that she, carrying the flag of the Royal Yacht Squadron, would act so dishonorably.

The *News* publishes a letter from Stoddard, master of the *Kearsarge*, complaining of the *Deerhound* as a consort of the *Alabama*.

New York, July 7.—The *Tribune's* Washington special says the occasion of the suspension of the writ of *habeas corpus*, proclaiming martial law in Kentucky, is in consequence of anticipated trouble in enforcing the draft, particularly the enrollment of slaves.

It is understood Fessenden will not contract the currency.

California News.

Marysville, July 9.—No Eastern news to-night. Private telegrams of the 7th quote gold at 270 on the 8th at 274@276. Legal tenders 44.

Yreka, July 9.—A fire broke out about 2 o'clock P. M., in the Foundry and Machine Shop in the southern part of the town. The buildings occupied nearly the entire block. In five minutes the entire structure was in flames. The exertions of the firemen prevented the flames from spreading. The foundry works were owned by H. T. Shepherd, whose loss is estimated at not less than $15,000.

Notes of a Trip to the Santiam Mines

Indications of the existence of gold and silver were first found in this region some five years ago by the denizens of the Willamette valley who frequented the mountains in search of game, as Elk, Bear, &c., &c. The "color" is obtainable in all the streams, and from the character of the "rein stones," those who were acquainted with silver and gold bearing lodes were led to the belief that, sooner or later, rich mines of these precious metals would be discovered. Until within the last year the subject was forgotten save by a few, but the discovery of the White Bull lead on Gold Hill, and the rich specimens obtained therefrom, have re-enlisted those who had lost faith in the prospective wealth of this new Eldorado of Oregon.

We visited this region lately for the purpose of seeing for ourselves and reporting, to those interested, our honest convictions concerning the actual condition of the "prospect" there. The trip from Salem to the foot of the mountains at this time of the year is pleasant and enjoyable, even to one who is the least inclined to adventures for information, health or wealth. The distance to John Bryan's from Salem is 26½ miles, which may be traveled easily in one day on horseback or by stage with two hours' time for dinner at Scio, Linn county, where also one can obtain everything necessary for the trip to Quartzville. Mr. Thorp will be in readiness with his saddle and pack train of good horses to take passengers in—and out on reasonable terms to suit the most economical hombres. Thomas fork of the Santiam, which in many places is by no means an insignificant stream, is crossed here, and a beautiful panoramic view along Mill Creek Prairie is obtainable by the lover of Nature.

On Friday, June 24th, in company with G. H. Jones, of the Oregon Company, and Commodore Bryant who has traveled in these mountains many years, at all seasons, we started at 8 o'clock A. M., and followed up Wood's branch of Thomas' Creek three miles, here saw a magnificent fall then ascended the divide between these creeks, the first hill (Burnt Timber) is forty rods high, second hill, 1½ miles from Indian Prairie about a mile high and the trail is rather good. We arrived at Indian Prairie and camped for the day at half past one o'clock P. M. This prairie consists of an area of thirty acres, with good grass and water on it. This valley is a natural corral, fenced in by mountains and tall timber, with a gate at the north side. Our camp is situated under the branches of four gigantic fir trees, where a bark and bough shelter had been previously constructed as a matter of necessity, as would appear by the following notice posted on the premises.

Notice.—All persons visiting this camp pitch in and take good care not to burn this house down, as it is a good place in a rain storm for a poor wayfaring traveler. We built this in a terrible rain storm, and hope that no person will have as wet bodies as we had that night.

Signed,
COOPER,
NEWMAN,
WILLIAMS
and others

June 10th, 1864.

There is a stream of fine running water near the camp, which is five feet in depth and it is fifteen miles from the prairie to Bryant's.

On Saturday June 25th we left the camp at 7 o'clock A. M. and immediately commenced ascending Soap Grass Hill which is at least a mile high and very steep, on the top we passed over Soap Grass Prairie consisting of an area of about twenty acres, bearing luxuriant grass called soap in consequence of making a lather similar to the chemical composition after which it is named when mixed with water, then came to Bear slide—so called because in May 1857, Mr. Bryant and others frightened a huge bear who seated himself on the top of this steep descent and sled like, reached the bottom in a short space of time yelling defiance to the men who looked on the performance in amazement, the slide being deeply covered with snow at the time. The walking being rather laborious, we imitated Mr. Bruin and reached the bottom successfully to the expense of our unmentionables, after which we ascended Laurel Hill, when on top of the hill we obtained a beautiful view of Willamette Valley, Waldo Hills in Marion county being plainly discernible, then made the descent, and at 12 o'clock A. M., arrived at Crabtree Prairie. This is the last camp where grass is obtained for horses. Stopped two hours for food for man and beasts, ten miles to this point. Left at 2 o'clock P. M. and ascended the summit of the hill one mile and came to a lake of an oval shape covering about twenty acres of clear, deep water, [illegible] beautiful to grace the grounds of the [illegible] favored of earth's sons. We also found upon [illegible] a spring which affords the year round [illegible] the coldest water in the world, after passing the spring we commenced descending a five mile [illegible] and reached Packer's Gulch, on South Santiam, 4 o'clock P. M. and camped for the night. [illegible] color can be obtained everywhere on the S. Santiam and in crevices as high as fifty cents to the pan. From Crabtree Prairie [illegible] six miles. On the top of the five mile hill to-night, we saw snow.

On June 26th we left camp at [illegible] crossed Packer's Gulch, which empties into Santiam and followed the main Santiam three [illegible] came to Canal Fork of Santiam, followed it [illegible] miles then up Dry Gulch to Quartzville seven miles from Packer's Gulch, where [illegible] a 10 o'clock A. M.

Quartzville is situated on Dry Gulch, [illegible] Gold Hill and Quartz Mountain [illegible] found a majority of the leads discovered [illegible] trict. The following [illegible] situated: Union Co., Santiam Co., Oregon Co., [illegible] Co., Dencke & Co's store (where is also the [illegible] ter's office, Keystone Co., Miller [illegible] Sterling & Co.'s family residence [illegible] the R[illegible] who has his wife and child there, the pioneers of the Gulch.

Gold Mountain is the place in which a majority of the leads that now attract attention are situated. On the north side of the mountain three fourths of a mile up south of east is the tunnel of the "Union G. & S. Mining Co." on the White Bull Lead. They first encountered a quartz boulder of many tons in weight which [illegible], exposed several feet of gr[illegible] then [illegible] glance of then black [illegible] silver in it, then a layer of [illegible] quartz and last the lead proper of gold bearing quartz. Leads all run south east. Here the rich specimens exhibited in Portland were obtained.

We picked off several large pieces of quartz from this place in which [illegible] can be seen and on return to camp had it pulverized and washed and obtained a large [illegible] prospect. The lead is about six feet wide here. From this tunnel we ascended to the top of the mountain about 150 feet where the lead is easily accessible to commence to descend on the [illegible] side [illegible] this side of the mountain below the crest we came to the tunnel on White Bull belonging to the Santiam Gold and Silver Mining Co. this is deeper than the Union, being some 12 feet in on the lead which is 8 feet wide [illegible] the indications are equally rich. After [illegible] 300 feet and following the course of White Bull we came to Ward & Co's claim (since [illegible] to the Santiam Company) where a shaft has been sunk 15 feet to the lead at the bottom which, it is found some ten feet wide and equally rich.

On the south side of the mountain 100 feet above of White Bull and 300 feet down is the first [illegible] croppings of the Keystone Lead where Messrs. Newman & Williams [illegible] work. [illegible] gold [illegible] notwithstanding they have obtained some very rich gold bearing croppings [illegible] well defined and [illegible] to be [illegible] West of White Bull is the Driggs Lead which is well defined and as far as tested will indicate that when prospected will successfully rival the White Bull [illegible] in the same mountain and runs parallel with it. The Calf Lead was just commenced [illegible] and also gives rich indications. The largest amount of work done on any lead is the [illegible] on the Smith, where they have [illegible] the Smith Tunnel but from some cause unknown to us have for the present abandoned work [illegible] they did not get to the lead yet—but indications were favorable.

On the opposite side of Gold Mountain two miles high situated east and west is Quartz Mountain. The claims here run northwest to southeast. The first lead east is the Grand Sultana taken up by a Portland company. No work has been done on it yet. It is well defined and the indications are good. The second is the Mammoth Lode, taken up by Messrs. Reed, Green & Co. of Portland. The outcropping of quartz can be here seen for 100 feet on a lead 25 feet high, 4 or 5 feet wide. Indications good. The Cascade Company have ten claims on this lode. The third is Excelsior Lead which runs south and is well defined by out croppings. There is a spur northwest from Quartz Mountain called Diamond Point on which is a lead taken up by the Cascade company and others. The fifth is Grand York Lead. This lead is well defined and bids fair to rival all the other leads in the Santiam District, for silver. Some of the ore obtained from it assayed very heavy in silver, and its external manifestations are such as to make a Washoe to prefer it for the silver to all other leads. On the south side the Oregon Gold and Silver Mining Company have nine claims. On the north side the Cascade Company have ten claims. There is another spur on which is found the Council Point Lead. Ten claims are owned on this lead by the Cascade Company and fourteen by Jesup & Co., on the south side. The other two leads the Burg and Washoe, furnish the list for this mountain.

The four most prominent companies are, 1st, The Union Gold and Silver Mining Company, who own twelve claims on Driggs Lead No. 1—south side of Gold Mountain, twelve on White Bull, twelve on Smith Lead, twelve on Union or Calf Lead, twelve on Webfoot Silver Lead. The claims on the four first named leads are 300 feet long, and on Webfoot one quarter of a mile each. (The Webfoot is the silver lead next to Grand Turk on Gold Mountain, well defined and easily traced.) These claims give the Union Company 30,950 feet, equal to about 32 feet to each share in said company. This company has expended the most means and had a large amount of labor performed on their claims and have every prospect of realizing profitable dividends for their shareholders in a short time. The directors are to pay their claims a visit for the purpose of increasing the amount of labor and going more extensively to work on their leads and in a more systematic manner than heretofore. They have signified their intention to secure the services of a first class superintendent, and will immediately proceed to obtain machinery, etc., etc.

2d, The Santiam Gold and Silver Mining Company, hold the following claims. Six claims on White Bull Lead No. 3, on the south side Gold Mountain, one claim on Lebanon Lead, one claim on Driggs Lead No. 1, one on the north side of Gold Mountain, one claim on Dry Gulch, making a total of some 2,700 feet, equal to two feet to each share in the company. Their prospects are good.

3d, The Oregon Gold and Silver Mining Company, W. S. Ladd of Portland, President, own five claims on the north side and three on the south side of White Bull Lead, one on Driggs Lead, two on Lebanon Lead, three on Smith Lead, nine on Grand Turk, six on the upper end of Dry Gulch, eight on Packer's Gulch, eight on Driggs Creek, in all forty seven claims. The Oregon Company's claims are good if any of the rest are. They have men at work on the White Bull and are daily expecting rich results therefrom. This company also possesses five claims on Grand Turk.

4th, Eureka Gold and Silver Mining Company, own seven claims on Petty's Lead, twelve on Warner, five on Smith Lead, one quarter of a mile to each, five claims for silver. This company's claims are situated in Happy Camp District and those who are familiar with the leads speak in high terms of their indications and prospects. The company are immediately to commence operations on their most promising leads.

The trip can be made in eight days allowing three days to remain and examine the various leads mentioned. It is well worthy of any one to give it a trial, especially if suffering from melancholy or dyspepsia, the route is elegantly watered and with the assistance of a staff, horses, toil and energy, the trip can be easily accomplished by the merest tyro in mountain traveling.

If any one wishes to avoid patronizing the Doctor and drugs, let him start for the Santiam, partake of the cool, invigorating mountain breeze, have his mental and physical faculties reinvigorated, and feel as spry and lithe of limb as in days of youth; if he is a lover of the grand and sublime, let him go down Bear Slide and ascend Summit Hill and Five Mile Mountain; if he is sufferer from headache, let him bathe his aching brow in Summit Spring and be refreshed by its accommodating coolness. If he is restless let him enjoy "tired nature's sweet restorer, balmy sleep," in "Sleepy Hollow," after a cup of *tree h*[illegible] coffee, made by the prince of mountain cooks, friend Jones; if he sneers and doubts the existence of mineral wealth for us in the Willamette Valley let him ascend Gold Mountain and see the "White Bull," the "Driggs," the "Calf," the "Webfoot," or on Quartz Mountain and take a note on the "Grand Turk," or his spouse, the "Grand Sultana," or a chunk of the "Grand Mammoth."

NEW TO-DAY.

New York Gold [illegible]

Big Guns.—The bark *Helen W. Almy*, now lying at Couch's wharf in this city, has a *little* the largest samples of big guns that ever did, or in all human probability ever will arrive in Portland. The largest consist of two 15 inch Columbiads, 18 feet long, 4 feet in diameter at the butt, tapering down to [illegible] inches at the muzzle. The weight of the largest [illegible] and separately have they been finished [illegible] there is not 60 lbs. difference in their weight. They were cast at the celebrated Pitt Foundry, Pittsburgh, Pa., and are similar to those mounted upon the monitor *Dictator*. Two others of 10 inch calibre are on the same vessel, together with a very large supply of ordnance stores. These guns will be distributed to the various works for fortifying the mouth of the Columbia, and if we are correct in judgment all the powers of darkness can not enter [illegible] against the laws of the elements and these guns combined, if it is thought necessary to prevent them.

Arrival of the Bark Almy.—The bark *Helen W. Almy*, Capt. Freeman, master, came gliding into our port on Saturday unattended by a steamer, having sailed the entire distance from San Francisco since the 22d ult. The following are consignees:

Acting Commissary Subsistence, Fort Vancouver, 3 22 packages. [illegible] Capt. Smith 10. [illegible] McCraken 150. John West 1. Hungton & Shindler 7. Failing & Hatt, 10. Hodge & Cal[illegible] 11. [illegible] Alvord [illegible] A. Cabin & Co. [illegible] S. B. & Co. 11. [illegible] Millvidge & Morse, 134. T. B. [illegible] [illegible] Capt. Jordan [illegible] [illegible] 45. H. W. Corbett [illegible] H. Law 6. S. 154. B. J. [illegible] Wells & Co. 48. [illegible]

The most of this freight is very heavy and aside from the heavy ordnance consigned to Capt. Elliott, the derricks, etc., for hoisting them to their position on the fortifications, and the goods for the Commissary Department the list is small.

Butter.—We have been placed under obligation to Mr. Dufer, of East Portland, for choice samples of the product of his dairy. We but express the universal edict of our citizens, when we allot to him the prize in butter making. We hope the day is not far distant when our farmers will enter upon the business generally, upon the correct principles. A farmer remarking to us about the subject a few days since stated that it would be an easy matter to manufacture in Oregon all the butter necessary to supply this market, but the maker must prepare for the work, just as necessarily as they would prepare the ground for a crop of grain, and the preparation is not absolutely expensive. To show how much demand there is for butter on the coast, we have the statement of the San Francisco *Flag* that previous to the arrival of the steamers from Panama, the market for butter was entirely bare, and the importations by the *Golden Age* and *Golden City* were but 960 firkins. Oregon may just as well supply the California market, as to let it be done by New York. Our butter can be put up as well. We have in our State all the elements necessary to do it, and Multnomah county is by no means the least able to assist.

Improvements on Couch's Addition.—It is but a very few years since there was hardly buildings enough north of Vine street on what is denominated "Couch's Addition to the city of Portland," to define what were lots and what were not. With few exceptions, the whole section was uninhabited, and for the matter of that some say uninhabitable. Now everything has changed as if by magic, and steadily the city has pushed itself outward, like a thick growing vine, until it has extended nearly over the entire space, and we see the orchards, comfortable homes and the pleasant surroundings of life. More houses are being erected the present season, and some of them will rank among the most elegant residences in Portland. The streets are being improved, substantial side walks laid, and everything seems to betoken thrift in that locality.

A Stir among Machinery.—On Saturday last an accident occurred at the wood turning and carving establishment of Mr. Wilcox, on Front street, near the bridge, which for a few moments caused quite an uproar, simultaneously starting all the saws and lathes in the workmen's room, throwing sticks and blocks about as if an angry whirlwind had been let loose upon them. A long shaft extends through the building, which is driven by a steam engine, and at times runs very rapid, and again quite slow, according to demand upon its capacity, and it happened to give way, one end falling down, when it was making several hundred revolutions a minute, on Saturday, which tightened all the belts, and started all the machinery, before it could be stopped. Luckily no person was badly hurt.

United States District Court.—The case of the Cowlitz Landing Steamboat Company *vs.* the steamer *Senator*, was submitted in the United States District Court on Saturday, after two days' trial. Some twenty five witnesses were examined. The motion for a new trial in the case of the United States *vs.* Edward Tichnor, was overruled, and sentence will be passed this morning. A part of the testimony has been taken in the case of Jeanison, Green & Rhodes *vs.* the schooner *Jenny Jones*.

The Telegraph.—We noticed a propeller scow lying at the foot of Alder street yesterday, having on board several barrels of insulators, bales of telegraph wire and machinery for putting up the line which is in course of construction to Puget Sound. We understand the line is completed to the Columbia river, and some distance beyond, and will soon be suspended across that stream, by the aid of the steam scow which goes as a tender to the work.

Property Sale.—Four very valuable homestead lots were disposed of in this city on Saturday last at auction, by Mr. A. B. Richardson. The lots were on block 231, handsomely and conveniently situated between Seventh and Park, and Washington and Alder streets. No. 1 and 2 sold to Mr. E. Milwaine—the first at $800, the second at $550. Lots 3 and 5 sold to Mr. James McCown, the two at $1,235.

Accident.—On Saturday as a portion of the cargo of the bark *Helen W. Almy* was being discharged, a large iron safe slipped through the sling in hoisting and fell back with a terrific crash into the hold of the vessel, striking on some ordnance pieces that proved the destruction of that "fire proof Herring." The safe was broken through at the back, and lost two legs, luckily no other injury was inflicted.

Narrow Escape.—On last Saturday evening a gentleman attempted to pass on board of the bark *Cambridge* where she was lying at the North Portland saw mill, designing to ship for Honolulu, when the plank slipped and he fell into the river. The accident was soon discovered by parties near at hand, and the unfortunate man was rescued, but it came near being a case of drowning.

Personal.—We shall miss from among our acquaintances on the usual daily round, our generous friend Mr. Charles Freeman, long connected with the County Clerk's office, in this city. Mr. Freeman goes into the employ of Capt. Flavel, at Astoria, and we congratulate the citizens of that place upon this acquisition to their residents.

Sunk.—A small sloop, modeled after the Chinese class of boats, was sunk yesterday just below the steamship landing. Her deck is partly out of the water, and her nose lays upon the bank. The cause of the sinking is supposed to arise from the careless manner in which she was tied up, and the rapid fall of the river.

Working the Roads.—The pile driver has been employed by the supervisor of Road District No. 4 to aid in the construction of bridges that will not float away with every freshet. It will no doubt be found the cheapest way to build the best kind. This road runs north from the city, passing Mr. Giles farm, leading to the head of Sauvie's Island.

Organized.—The Ainsworth Mill Company completed its organization on the 2d inst., by the election of Messrs. J. C. Ainsworth, R. R. Thompson, and D. F. Bradford, directors. Capt. Ainsworth was elected President, and Geo. W. Murray, Esq., Secretary.

A Runaway.—A horse ran away on Second street Saturday, coursing down Morrison to First and Taylor streets to the place of beginning, managing in the meantime to demolish a light vehicle and tear a single harness into shreds, making the unfortunate driver "pungle" about $50 for repairs.

Now everything has changed, as if by magic, and steadily the city has pushed itself outward, like a thick growing vine, until it has extended nearly over the entire space, and we see fine orchards, comfortable homes and the pleasant surroundings of life. More houses are being erected the present season, and some of them will rank among the most elegant residences in Portland. The streets are being improved, substantial side walks laid, and everything seems to betoken thrift in that locality.

A Stir among Machinery.—On Saturday last an accident occurred at the wood turning and carving establishment of Mr. Wilcox, on Front street, near the bridge, which for a few moments caused quite an uproar, simultaneously starting all the saws and lathes in the workmen's room, throwing sticks and blocks about, as if an angry whirlwind had been let loose upon them. A long shaft extends through the building, which is driven by a steam engine, and at times runs very rapid, and again quite slow, according to demand upon its capacity, and it happened to give way, one end falling down, when it was making several hundred revolutions a minute, on Saturday, which tightened all the belts, and started all the machinery, before it could be stopped. Luckily no person was badly hurt.

United States District Court.—The case of the Cowlitz Landing Steamboat Company *vs.* the steamer *Senator*, was submitted in the United States District Court on Saturday, after two days' trial. Some twenty-five witnesses were examined. The motion for a new trial in the case of the United States *vs.* Edward Tichnor, was overruled, and sentence will be passed this morning. A part of the testimony has been taken in the case of Jeanison, Green & Rhodes *vs.* the schooner *Jenny Jones*.

The Telegraph.—We noticed a propeller scow lying at the foot of Alder street yesterday, having on board several barrels of insulators, bales of telegraph wire, and machinery for putting up the line, which is in course of construction to Puget Sound. We understand the line is completed to the Columbia river, and some distance beyond, and will soon be suspended across that stream, by the aid of this steam scow which goes as a tender to the work.

Property Sale.—Four very valuable homestead lots were disposed of in this city on Saturday last, at auction, by Mr. A. B. Richardson. The lots were on block 231, handsomely and conveniently situated between Seventh and Park, and Washington and Alder streets. No. 1 and 2 sold to Mr. E. Milwaine—the first at $800, the second at $550. Lots 4 and 5 sold to Mr. James McCown, the two at $1,935.

Accident.—On Saturday as a portion of the cargo of the bark *Helen W. Almy* was being discharged, a large iron safe slipped through the sling in hoisting, and fell back with a terrific crash into the hold of the vessel, striking on some ordnance pieces that proved the destruction of that "fire proof Herring." The safe was broken through at the back, and lost two legs, luckily no other injury was inflicted.

Narrow Escape.—On last Saturday evening a gentleman attempted to pass on board of the bark *Cambridge*, where she was lying at the North Portland saw mill, designing to ship for Honolulu, when the plank slipped and he fell into the river. The accident was soon discovered by parties near at hand, and the unfortunate man was rescued, but it came near being a case of drowning.

Personal.—We shall miss from among our acquaintances, on the usual daily round, our generous friend Mr. Charles Freeman, long connected with the County Clerk's office, in this city. Mr. Freeman goes into the employ of Capt. Flavel, at Astoria, and we congratulate the citizens of that place upon this acquisition to their residents.

Sunk.—A small sloop, modeled after the Chinese class of boats, was sunk yesterday just below the steamship landing. Her deck is partly out of the water, and her nose lays upon the bank. The cause of the sinking is supposed to arise from the careless manner in which she was tied up, and the rapid fall of the river.

Working the Roads.—The pile driver has been employed by the supervisor of Road District No. 4, to aid in the construction of bridges that will not float away with every freshet. It will no doubt be found the cheapest way, to build the best kind. This road runs north from the city, passing Mr. Giles' farm, leading to the head of Sauvie's Island.

Organized.—The Ainsworth Mill Company completed its organization on the 2d inst., by the election of Messrs. J. C. Ainsworth, R. R. Thompson, and D. F. Bradford, directors. Capt. Ainsworth was elected President, and Geo. W. Murray, Esq., Secretary.

A Runaway.—A horse ran away on Second street Saturday, coursing down Morrison, up First, and Taylor, etc., "to the place of beginning," managing in the meantime to demolish a light vehicle, and tear a single harness into shreds, making the unfortunate driver "pungle" about $50 for repairs.

The Prevailing Fashion of Embroidery Work on articles of ladies' dress is greatly facilitated by having the labor performed by machinery. Manufacturers respectively announce that their machines will sew, hem, braid, bind, fell, tuck, cord, gather, etc; but we know of none that possesses the *faculty of embroidering* but the "Grover & Baker." Some articles of ladies' wearing apparel have been shown to us (embroidered) by this machine. The only difference we could perceive between work thus performed, and that done by hand labor, is, that the former is more regular, and consequently more beautiful. It is more rapidly, and of a needless expense, thereby created in this way.—*Home Journal.*

Nervous Debility.—It is quite common to find in the female sex persons suffering from what are called "weak nerves," without any actual organic disease. This condition, which is really one of weakness and pain, is happily modified by the PERUVIAN SYRUP, which restores the tone of the nervous system by its direct vitalizing influence on the blood.

Dr. Hostetter's Stomach Bitters.—These Bitters are universally acknowledged to be a sure preventive and cure for Fever and Ague, Flatulence, Heaviness of the Stomach, or any other like affection. Their effect upon the system is most miraculous; they give a healthy tone to the system; relieve all morbid matter, and in fact thoroughly cleanse the system of all impurities. In no case has it been known to fail, but on the contrary, new virtues have been found in its use. To those afflicted with any of the above ills of the body, the "Bitters" are offered as a speedy and certain cure. Try them and form your own opinion.—Sold by all Druggists and dealers everywhere. je26d1m

Periodical Headache—so common in uncleared and marshy countries. Tic Douloureux, that most painful affection of the nerves of the face, are often only attacks of ague in *disguise*—proceeding from the same noxious influence. Jaundice, Dyspepsia and Diarrhea, are frequently but disguised forms of Intermittent Fever. Even Rheumatism and Epilepsy, often result from the same miasmatic cause. For such, Dr. Osgood's India Cholagogue is an unfailing remedy. By striking at the root of these affections, it applies with equal certainty, as for the cure of Fever and Ague in its simplest forms.

Imitations are abroad! Be particular to enquire for *Dr. Osgood's India Cholagogue.* Sold everywhere.

Coughs and Colds.—The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily when taken in the *early stages* of the disease recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them, as they can be carried in the pocket, and taken as occasion requires.

A GREAT INDUSTRIAL FAIR

To be opened in the City of

SAN FRANCISCO,

On the 30th day of August, 1864,

Under the direction of the

Mechanics' Institute,

OF SAN FRANCISCO.

The attention of the public is invited to this great display of our skill, industry and enterprise. To explain the objects and benefits of the Exhibition, of the preparations for holding it, and the regulations for its management, a Circular has been published by the Institute in letter form and widely distributed. It may be seen at any office of Wells, Fargo & Co., at any Post Office, and at many of the country stores, throughout the Pacific States and Territories.

The various Transportation Companies will, with commendable liberality, transport all articles intended exclusively for exhibition, FREE OF CHARGE; and Wells, Fargo & Co., in like manner, will take charge of them.

All articles forwarded should be labeled "For the Industrial Exhibition," and be directed to C. B. PORTER, Agent, and all communications be addressed to

WILLIAM PATTON,
Corresponding Secretary.

June 6th, td

UMATILLA AND BOISE.

OUR LINE OF COACHES

In connection with our

Passenger Trains,

Changing Horses every twenty miles, are RUNNING REGULARLY between

Umatilla and Boise Mines,

Connecting with the O. S. N. Co's Steamers from Celilo.

Passengers arriving on Steamers at Umatilla can reach the Boise Mines in

Quicker Time and for less money

by from FIFTEEN TO TWENTY-FIVE DOLLARS than by any other route.

WE WILL WAGER $2500 EACH TRIP, for thirty consecutive trips of the Boats, or any number less, that passengers arriving at Umatilla and starting on our line, will arrive at the Boise Mines before those arriving upon the same Boats and going by any other route.

As a forfeit for the wager, we will put Fifteen Thousand Dollars worth of Horses and Mules against the same amount of Horses, Mules, Cattle, Gold or Greenbacks.

For particulars, enquire at our Office at the ORLEANS HOUSE, Umatilla, Oregon.

ISH & CO., Proprietors.
Umatilla, Oregon, May 1st, 1864. my9tf

Notice.

THE COPARTNERSHIP IN THE BANKING Business heretofore existing between Eugene Kelly, of the city of New York, and Joseph A. Donohoe, William C. Ralston, and Ralph S Fretz, of San Francisco, under the firm name of EUGENE KELLY & CO., New York and DONOHOE, RALSTON & CO., San Francisco, will cease on the first (1st) day of July, 1864—Eugene Kelly and J. A. Donohoe withdrawing from the copartnership.

The business will be settled in New York by Eugene Kelly, and in San Francisco by Wm C. Ralston and R. S. Fretz.

Depositors are requested to hand in their books for settlement at the Banking House of Donohoe, Ralston & Co.

HARRINGTON'S.

From the army hospital—the bloody battle-field—the mansion of the rich and humble abode of the poor—from the office and the sacred desk—from the mountain top, distant valleys and far off islands of the ocean—from every nook and corner of the civilized world—is pouring in the evidence of the astonishing effects of DRAKE'S PLANTATION BITTERS. Thousands upon thousands of letters like the following may be seen at our office.

BELVIDERE, Wis., Sept 16, 1864.

" * * * I have been in the army hospitals for fourteen months—speechless and nearly dead. At Alton, Ill., they gave me a bottle of Plantation Bitters. * * * Three bottles restored my speech and cured me. * * *

C. A. FLAUTE."

SOUTH WARSAW, O., July 26, 1863.

" * * * One young man, who had been sick and not out of the house for two years with Scrofula and Erysipelas, after paying the doctors over $150 without benefit, has been cured by ten bottles of your Bitters.

EDWARD WOUNALL."

The following is from the manager of the Union Home School for the Children of Volunteers:

HAVEMEYER MANSION, FIFTY-SEVENTH STREET,
NEW YORK, August 2, 1863.

"Dr. DRAKE: Your wonderful Plantation Bitters have been given to some of our little children suffering from weakness and weak lungs with most happy effect. One little girl, in particular, with pains in her head, loss of appetite, and daily wasting consumption, on whom all medical skill had been exhausted, has been entirely restored. We commenced with but a teaspoonful of Bitters a day. Her appetite and strength rapidly increased, and she is now well. * * Respectfully, MRS O. M. DEVOE."

" * * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.

REV. W. H. WAGGONER, Madrid, N. Y."

" * * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use.

Thy friend, ASA CURRIN, Philadelphia, Pa."

" * * * I have been a great sufferer from dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.

REV. J. S. CATHORN, Rochester, N. Y.

" * * * Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house.

SYKES, CHADWICK & CO.,
Proprietors Willard's Hotel, Washington, D. C.

" * * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.

G. W. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O.

" * * * The Plantation Bitters have cured me of liver complaint, of which I was laid up prostrate and had to abandon my business. H. B. KINGSLEY, Cleveland, O."

" * * * The Plantation Bitters have cured me of a derangement of the kidneys and urinary organs that has distressed me for years. It acts like a charm.

C. C. MOORE, 254 Broadway, N. Y.

etc. etc. etc. etc. etc.

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya Bark, Wintergreen, Sassafras, Roots, Herbs, &c. all preserved in perfectly pure St. Croix Rum.

S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try them.

They are recommended by the highest medical authorities, and are warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and impostor. It is put up only in our patent log cabin bottle. Beware of bottles refilled with imitation deleterious stuff for which several persons are already in prison. See that every bottle has our private United States Stamp over the cork unmutilated, and signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

The Chivalry of the Rebel General Lee.—"When monkeys are gods what must the people be?" Robert E Lee, commander of the rebel army is declined the paragon of Southern chivalry. The rebels have always been vain of being led by one of such pure blood, such stainless honor Justly enough by their standard but let us put him to a civilized test What is his blood? His grand father, R H Lee, had the taint of treason in him Writing in 1790 on the Federal Constitution, he said "When we [the South] attain our natural degree of population, I flatter myself that we shall have the power to do ourselves justice with dissolving the bond which binds us together!" His great uncle "Light Horse Harry" was stigmatized by Jefferson, who knew him well as an intriguer," "an informer," a "miserable tergiversator" Major General Charles Lee, of revolutionary memory and a kinsman was, as one may see by "Irving s Washington," not only a calumniator, but a plotter to supersede him; he was tried by Court martial after the battle of Monmouth, was found guilty of disobedience of orders, misbehavior before the enemy, and disrespect to the Commander in Chief, was subsequently dismissed from the service in disgrace, and soon afterward died in Berkley county, Virginia, leaving in his will these words "I desire most earnestly that I may not be buried in any church or church yard, or within a mile of any Presbyterian or consecrated meeting house, for since I resided in this county I have kept so much bad company while living that I do not choose to continue it when dead" The great uncle, Arthur Lee, was the libeler of Franklin and Jay and Jefferson, and described by Tucker, in his life of the latter, to have been 'singularly impracticable in his temper and disposition" The uncle Henry Lee, was in Congress at the time of the Presidential struggle between Jefferson and Burr, and, according to Tucker, advised 'despotic measures' to defeat the former, and he was a man of such bad character that when, in 1830, General Jackson, whose fiery partisan he had been, sent his nomination to the Senate for the Consulship at Algiers, Tazewell, of his own party and State, Chairman on Foreign Relations, reported against it, and it was unanimously rejected It would be difficult to name an old family in this country of any historical mark whose "blood" has been shown to be of worse quality than that of the Lees of Virginia —*New York Times*.

Attached to the Marriage State.—It is usually considered a noteworthy circumstance for a man or woman to have been married three times but of old this number would have been thought little of. St Jerome mentions a widow that married her twenty second husband, who in his turn had been married to twenty wives—surely an experienced couple

A woman named Elizabeth Mazi, who died at Florence, 1763, had been married to seven husbands, all of whom she outlived She married the last of the seven at the age of 70 When on her death bed she recalled the good and bad points in each of her husbands, and having impartially weighed them in the balance, she singled out her fifth spouse as her favorite, and desired that her remains be interred near his

The death of a soldier is recorded, in 1784, who had five wives, and his widow, aged 96, wept over the grave of her fourth husband. The writer who mentioned these facts naively added, "the said soldier was much attached to the marriage state"

There is an account of a gentleman who had been married to four wives, and who lived to be 115 years old When he died he left twenty-three "children" alive and well, some of said children being from three to four score

A gentleman died at Bordeaux, in 1772, who had been married sixteen times

In July, 1768, a couple were living in Essex who had been married 81 years, the husband being 107 and the wife 103 years of age

At the church of St Clement Danes, in 1772, a woman of 85 was married to her sixth husband —*Phrenological Journal*

Josh Billingson Drafting.—Widder wimmin, and their only son iz kempt, provided the widder's husband has already sarved 2 years in the war, and iz willing to go agin; i believe the supreme corte has decided this thing forever.

Once more If a man should run awa with his draft, he probably wouldn't ever be allowed to stand the draft agin; this looks sevear at fust sight, but the more yu look at it the more yu can se the wisdom into it

Once morely Xempts are those who have been drafted into the stait prizzen for trying to git an hennist living bi supporting 2 wives at onst, also, all them people who are crazed and onsound on the goose; also, all nusepaper correspondents and fools in general

Once morely agin No substitute will be acksepted who is less than three or more than ten feet high, he must kno how to chew tobacker and drink poor wiskee, and mustn't be afeerd of the itch nor the rebels Moral charakter aint required as the Government furnishes that and rashuns

Conclusively No person can be drafted but twice in 2 different plases withou his consent, but all men has a right to be drafted at least onst i don t think even a rit of habeas corpus could deprive a man of this last blessed privilege

"There's a Man in It."—The confidence reposed in Lieutenant General Grant by President Lincoln, and the cordiality which exists between these distinguished men were happily illustrated by a characteristic anecdote related by the President in the course of a familiar conversation with a personal friend. In reply to a question in regard to the present military prospect Lincoln with that peculiar smile which he always puts on when about to tell a good story said Well sir, your question reminds me of a little anecdote about the automaton chessplayer which many years ago astonished the world by its skill in that game After a while the automaton was challenged by a celebrated player who, to his great chagrin was beaten twice by the machine At the end of the second game the player significantly pointing his finger at the automaton, exclaimed in a very decided tone, There s a man in it" And this sir, is just the secret of our present success"

In St Louis lately the Belgium Consul, an American citizen, was arrested for aiding and betting rebels

The Proportion of Losses.—In the Peninsular war the annual loss of the British army was 165 to 1,000 in the Crimean war during July August and September it was at the annual rate of 293 in 1,000 but during the following winter months it rose to 511 in 1,000 and during the next three weeks the loss was at the fearful rate of 912 in 1,000 During the last year the loss in the American army was only 55 in every 1,000 These figures look small when compared to the bloody records of Chickamauga and Gettysburg and are probably nearly correct One of the prominent reasons for this favorable showing no doubt, is that not only are our armies better provided with medical men and other auxiliaries but it is backed up with an organization such as was never before known in the world s history —*The U S Sanitary Commission*

Anecdote of General Butler.—A correspondent of the N Y *Tribune* says

Gen Butler sent a man of the name of Curtis, who has been a pilot on James river and who professed to know the position of the rebel torpedoes, to Admiral Lee with the characteristic suggestion "If he faithfully and truly performs his duty and answers all queries, return him to me at Bermuda Landing, if not hang him at the yard arm This was dictated in the presence of Curtis to whom the General then remarked Now my man, go you have your life in your own hands"

Of all the many pretty things spoken in play by Sydney Smith that obese angel of English wits, none throws so amiable a light on the essential vein of his intellect—its playfulness—as that recorded in the story of the pretty girl and sweet peas It is a story that will bear any amount of repeating "Oh! Mr Smith" the pretty girl said who was paying a visit to his garden with a party of friends, and pointing to some sweet peas "those sweet peas have not yet come to perfection" "Then," said Sydney Smith stepping forward and taking the young beauty by the hand, "permit me to conduct perfection to the sweet peas"

Gen Sherman having asked the Superintendent of a construction train what time it would take him to replace the bridge near Resaca, and having been told that it would take near four days, replied "Sir, I give you forty eight hours, or a position in the front ranks before the enemy!" The bridge was completed in forty eight hours

A merchant who died suddenly, left in his desk a letter written to one of his correspondents His clerk, a son of Erin, seeing it necessary to send the letter, wrote at the bottom, "Since writing the above I have died"

An editor out West wants to know "what's to become of the women if muslin goes up much higher?" Our devil thinks the result will be that they ll turn out to be a poor *shift* less set

The police of San Francisco have commenced seizing all wagons, etc, left in the streets after night

40 Volunteers Wanted.

By the Proclamation of Gov A C Gibbs of June 11th, 1864 I am author zed to raise an

Independent Detachment of Mounted Volunteers,

for the purpose of protecting the road from Dalles to Canyon City against the depredations of marauding bands of Snake Indians who now infest it The men will be required to furnish their own horses and camp equipage and will be mustered into the service of the United States until November 1st, 1864 and will receive the same pay, rations and medical attendance as United States Cavalry

It is believed that

A LIBERAL BOUNTY WILL BE PAID

by the citizens of the Dalles to the members of this Detachment.

☞ Persons wishing to join the Expedition will apply to the undersigned, at his office at the Court House, in Dalles City NATHAN OLNEY,
Dalles, June 29th 1864 Recruiting Officer.

IODINE WATER.

Iodine water is the most important discovery of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent Iodine has been considered the most useful article in Materia Medica but many of the most scientific and practical chemists and physicians have investigated its effects upon the human system It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless until Dr Henry Anders a physician and chemist of New York after years of patient labor and experiment discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent This, considered impossible by the ancient scientific world is attested by certificates of analysis from Dr J R Chilton of this city and Prof Booth U S Mint Philadelphia The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals and its use recommended to practitioners (see American Medical Monthly July 6 1860, page 76)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms Consumption, Cancer Heart, Liver and Kidney Diseases Rheumatism, Neuralgia, Nervous Affections Dyspepsia, Bronchitis etc

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body, is the result of the employment of Iodine The patient recovers flesh strength and color blithe to pale, relaxed and feeble he becomes full strong and florid.
